PARTNER SUPPORT FOR THE REFORMS

Tunisia has been constantly supported by multilateral and bilateral partners for the most important structural reforms carried out along the transition path. The five-year development plan 2016-2020 aims at promoting stronger and inclusive growth.

Macroeconomic stabilization including fiscal consolidation, improved budget composition and reduced external imbalances through larger exports and FDI are considered prerequisites for growth.

On these basis, the partner support is mainly aimed at:

Macroeconomic Framework

- Ensuring macroeconomic stability and debt sustainability while mobilizing more external resources
- Increasing domestic resource mobilization in the context of an investment-friendly tax system
- Ensuring efficient public investment management
- Improving public sector performance

Business Framework

- Reliable regulations and institutions
- Improved project preparation
- Operationalization of PPP
- Simplifying investment procedures
- Streamling economic licences

Financing Framework

- Efficient risk mitigation instrument
- Domestic debt market development
- More effectiveness in financial and capital market development
